

### QUICK START GUIDE

1. Click **My Enrichment Activities**.

2. Click **Search Enrichment Activities**.

3. Type one or two key words about the topic you are looking for. For example, "solar system".
4. For a shorter list of results, click **Search Enrichment Activities that contains the exact phrase above**.
5. To get more results, click **Search Enrichment Activities that contain at least one of the words above**.
6. To only search the Enrichment activities that the computer has selected for you, click **Search your own Enrichment Activities**.
7. To search **ALL** of the activities in the Renzulli website, click **Search entire Renzulli Enrichment Database**.
8. Click **Search**.

### MY ENRICHMENT ACTIVITIES: SEARCH

[Return](#)

Please type in a keyword to search the enrichment activities:

- Search Enrichment Activities that contains the exact phrase above.
- Search Enrichment Activities that contain at least one of the words above.
- Search your own Enrichment Activities.
- Search entire Renzulli Enrichment Database.

[Search](#)

[Advanced Search](#)

Click here to start your search.

- The results of your search will appear on the following screen.
- To look at the results in a specific category, click the **blue link** to skip to that category. For example, if you would like to view online activities, click Online Activities.

## MY ENRICHMENT ACTIVITIES:SEARCH RESULTS

**Your Mission**  
 Welcome to Mission Central

Since the beginning of time, people have looked up at the stars and dreamed of going to space to explore other planets. For many years, this was just a dream, but in the past 40 years, it has become a reality. In the 1960s, the Soviet Union and the United States were in a frantic race to get to space first. The Soviets took an early lead by sending the first person into space, but then the Americans caught up by sending the first man to the moon.

Since the early days of space exploration, many people have gone into space, both men and women, African Americans, Asians, and soon the first civilians will be going to space too.

However, space exploration continues.

**Your Mission as a student:**

- Learn about three space missions — Friendship 7, Apollo 11, STS-7
